**Subject:** Info on suspected discharge at Prairie State Gilts CAFO in Schuyler County, IL

Greetings Cheryl

Good to talk with you yesterday.

Attached is a letter with information on the suspected discharge at Prairie State Gilts that we discussed.

We have some more pictures and information on the recent water testing if you would like more details. Also, let me know if you would like originals of the photographs or the data log shown in the letter. We also have some aerial photos of land application on snow covered ground from a few years back if those might be of interest.

I will call you when the local residents inform us of land application taking place this year.

Many thanks for your time.
